RBS is a great believer in developing people's capabilities which, in our view, is the number one reason anyone should engage in education. Many education providers focus on knowledge as the primary objective whereas, at RBS, we aim to develop our students with a well-rounded approach.

**Knowledge + Capability = Quality Outcomes.**

Rhodes Business School has built an exclusive position in the delivery of diploma and corporate education programs in the business and management space. We are about developing people so they have the skills to operate in the now and the ever-changing world of business.

complete a Bachelor degree, but are still not sure at which university and under which delivery model.

Today education is global and without borders. As such, Rhodes Business School gives students the opportunity to undertake the first year of their degree in smaller, focused and engaging classes, and then offers them the opportunity to undertake the remaining two years at select Australian and overseas universities.

I encourage you to explore our Pathway to University programs and the opportunity to be a part of the global education community as you prepare for a life of exciting and rewarding business.

I look forward to welcoming you to Rhodes Business School and watching your passion for education grow.
